RING TYPE JOINT GASKETS – TYPE RX

(AS PER ASME B16.20 / API 6A / API 17D)

Manufacturers & Stockists of Nickel Alloy, Titanium Alloys, Special Metals & Stainless Steel Products

We at Jade Special Metals are one of the well-known manufacturers, exporters and suppliers of **RX Type RTJ GASKETS**. We have developed products for a range of industries over the years. This Ring Type Joints are widely used by the Oil, Gas, Petrochemical and Offshore Industries in applications subject to high pressures and temperatures. The **Style RX** is an adaptation of the standard Style R which is energized when the assembly is pressurized. The RX is designed to fit the same groove design as a standard Style R, making the joints interchangeable, however consideration should be given to the difference in finished make up distance. The geometry of this modified design induces a pressure energizing effect when the assembly is pressurized, improving the efficiency of the seal. Designs are also available for subsea applications on existing assets, however, current API 17D does not support use of SRX Ring Type Joints.

RTJ RINGS HARDNESS & MATERIAL GRADES

Material (Trade Name)	Identification	DIN Material No.	AISI-ASTM UNS	Maximum Hardness	
				Brinell HB	Rockwell B HRB
Soft Iron	D	-	-	90	56
Low Carbon Steel	S	-	-	120	68
F5	F5	1.7362	A182FS	130	72

Notes:

Pressure balancing hole is required for RX-82 to RX-91. The hole is at center of dimension C.

Tolerances (mm)

- A* (width of ring) +0.20, -0.000
- H* (height of ring) +0.20, -0.000
- OD (outside diameter of ring) +0.050, -0.000
- 23° (angle) +/- 0.5°

We offer wide range of RTJ Gasket that in compliance with ASTM, ANSI, API, NORSOK standards at best Market prices in India. To know more about the latest price of RTJ Gasket please feel free to contact us on sales@jadealloys.com or call us on +91 9987685906
